

## Patron Self-Checkout Unit

# KEY FEATURES

### User-friendly interface

Text/voice/video instruction easily guides the patron through the checkout process using touch screen technology including language options.

### Attractive cabinet design

Custom crafted in your choice of colors.

### Report generation

Retrieve date specific circulation reports at any time.

### Pop-up notification

Sends kiosk status and patron messages to any circulation workstation.

### Checkout uncataloged material

Actually allows patrons to checkout unprocessed items.

### Item Security

Options include RFID or RF enabled. Including libraries without item security.

### Remote management

Allows for easy configuration changes, upgrades and diagnostics.

### RFID capability (optional)

Read/write to ISO-15693 RFID tags.

### Smart phone compatible

Read stored patron barcode from your smart phone app.

### Fee/Fine Payment

Optional payment module offering credit card, stored value card, on-account and coin-op vending capability.

Checking out library materials has never been so easy!

Expand your library's patron services with the i-circ<sup>®</sup> unit.

Today, the use of self-service kiosks has become more popular than ever and now your library can offer the same convenient service with the i-circ<sup>®</sup>. The i-circ<sup>®</sup> unit allows patrons to check out materials quickly and confidentially without waiting in lines at the circulation desk, and affords library staff more time for other critical circulation functions.

The i-circ<sup>®</sup> kiosk works with all the leading circulation systems, and its many exciting features will make the checkout process a pleasant experience for people of all ages. The staff will appreciate the i-circ<sup>®</sup> unit's ease of operation and little need for attention.
